

### CHORAL MUSIC 10–20–30

### A. PROGRAM RATIONALE AND PHILOSOPHY

The fine arts embrace music, art and drama without obscuring their uniqueness. Each has a body of content, partly derived from tradition and partly developed from the insights and interests of those involved. Each has its own mode of expression and makes its own contribution to society, necessitating the inclusion of the arts as separate subject areas in the school program.

There are fundamental principles that apply to all three. Specifically, the student is involved as a creator, a performer, a historian, a critic and a consumer. Throughout the grades, an articulated fine arts program should enhance the depth and breadth of expression and intuitive response. The maturing student learns to appreciate, to understand, to create and to criticize with discrimination the products of the mind, the voice, the hand and the body.

### PHILOSOPHY FOR MUSIC EDUCATION

The secondary music curriculum is based on the philosophy that music is an essential aspect of human existence and that music education is an important component of the total education program. An intricate relationship exists among the affective, cognitive and psychomotor development of human beings and, through music, all three domains interact effectively.

Music as an aesthetic form is an expression of human history that transcends language barriers and reflects the lifestyles, thoughts and aspirations of our cultural heritage. In today's rapidly changing society, the development of fundamental values and attitudes is paramount to human understanding. Music education provides an opportunity to bring art form to life; to express, perform and create.

Music is accessible to all and, as students become sensitive to its expressive elements, they may develop insight into human feelings. Music education should begin at an early age and continue to encourage creative expression through performance, listening and composition.

The curriculum provides for student growth and development as:

### Performer

Performance is an active process involving the development and application of musical skills, knowledge and perceptions.

### Listener, Evaluator, Consumer, Historian

These experiences develop an understanding of music and musicians of the past and present.

### Composer

The organization of the elements of music into an intrinsically satisfying composition generates aesthetic creativity and perception.

### **B. GENERAL LEARNER EXPECTATIONS**

Through the senior high music curriculum, students will:

### Perform/Listen

- develop skills in listening, performing and using notational systems
- strive for musical excellence and positive attitudes individually and as members of groups.

### Value

 understand, evaluate and appreciate a variety of music.

### Create

 develop self-expression, creativity and communication through music.

### Research

 be aware of the history of music and the implications of music in our society.

### C. SPECIFIC LEARNER EXPECTATIONS

The choral music program seeks to develop musical competency and strives for excellence within the limits of the student's capabilities. The concepts of rhythm, melody, harmony, form and expression provide the intellectual framework of the music program. Concepts are essentially taught through student participation in the skill areas of singing, playing, listening, reading (and writing) and creating.

The components of the high school choral music program consist of the following.

### Vocal

The student will:

develop/reinforce correct vocal techniques and skills.

### Aural

The student will:

 develop the ability to make aesthetic judgments based on critical listening and analysis of music.

### Theoretical/Practical

The student will:

 learn to interpret rhythm, melody, harmony, form and expression as they appear in musical notation.

### Composition

The student will:

 develop creativity by composing, improvising and interpreting music.

### Interpretation and Synthesis

The student will:

- grow in the appreciation, understanding and enjoyment of music as a source of personal fulfillment and cultural expression through the amalgamation of the program components
- become aware of the history of music and the implications of music in society with respect to music careers, and avocational and leisure uses.

### **ATTITUDES**

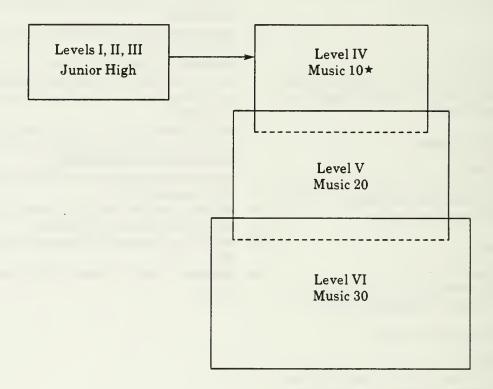

Positive attitudes are fostered by success in singing, playing, reading, listening, creating and valuing music. Through choral music, students will be encouraged to:

- value the uniqueness of this communication skill
- appreciate fine arts as a form of personal enrichment, self-expression and/or entertainment
- be appreciative of human values as they are recorded in great choral literature
- develop positive, realistic self-images through an understanding and acceptance of themselves with their strengths and their limitations
- develop an appreciation of the social value of choral participation
- continue to develop their creative abilities and to use them in a constructive manner to contribute to society and to personal satisfaction
- apply maximum effort and attain effectiveness in performance through physical and mental discipline
- appreciate creativity as exhibited in all areas of human endeavour
- maintain positive attitudes toward leisure in all its forms, present and future
- value the necessity of learning throughout
- develop a sense of purpose in life and joy in living.

### **OVERVIEW**

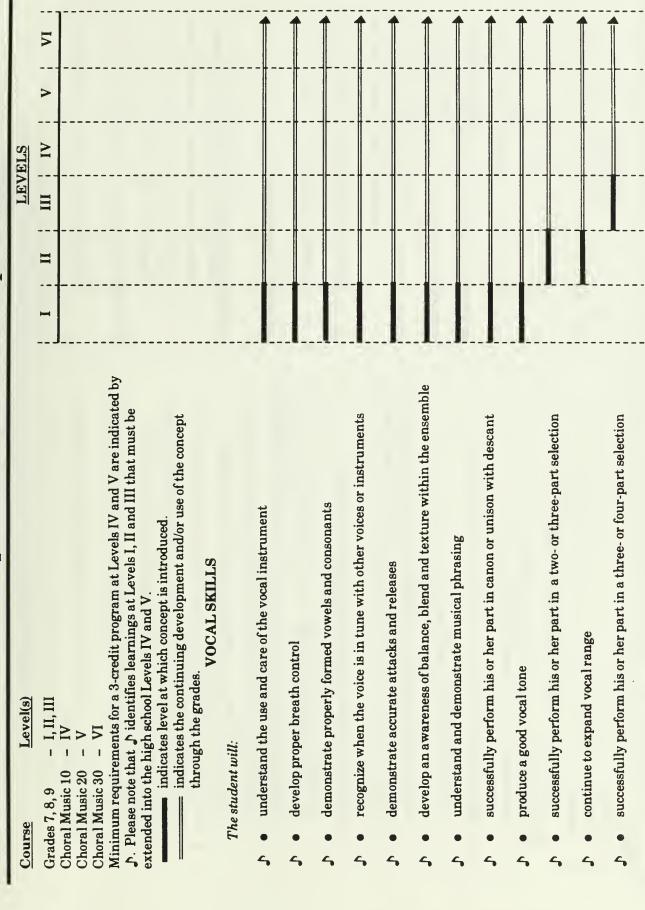

The components of the Senior High School Choral Music Program consist of vocal, aural, theoretical/practical, composition, interpretive and synthesis skills. These skills are divided into six levels: Levels I, II and III correspond to the program normally taught in the junior high school; Levels IV, V and VI to Music 10–20–30. Students who have completed the Junior High School Choral Music Program (Levels I, II and III) should begin at Choral Music 10 (Level IV).

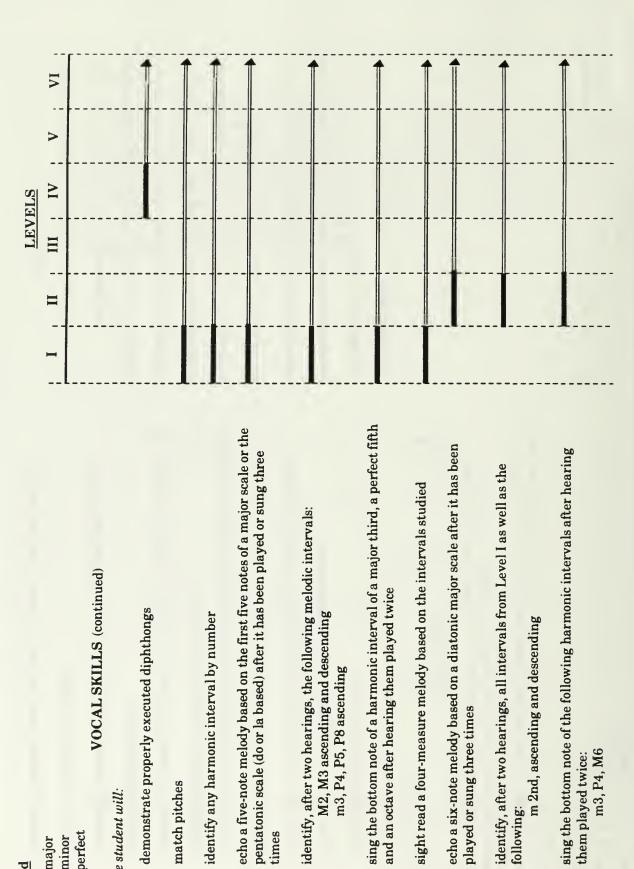

Since the six levels of music comprise a continuous developmental pattern for growth and achievement and not necessarily a time period elapsed, additional entry into the high school music program can occur with teacher/administrator discretion even though a student may not have taken specific levels previously in a classroom setting.

★ Students may also be admitted to Choral Music 10 at teacher/administrator discretion.

# SYNTHESIS SKILLS

### Literature

Selection, study and performance of repertoire is an integral component of the Senior High School Choral Music Program. The curricular components culminate with the performance of the literature.

As a consumer of choral literature, the student will:

recognize and understand the musical form employed in studied repertoire

evaluate compositions and performances on the basis of criteria set by the teacher.

As a performer of choral literature, the student will:

 recognize and understand the musical form employed in studied repertoire

analyze performance problems and take appropriate measures to resolve them
 perform a solo and/or sing in a small ensemble.

portion of music literature and plays an important role in music education. The sacred music on the supplementary literature lists has been selected on the basis of its musical and educational value; however, teachers must be sensitive to students of differing religious In the identification of a choral music literature list, it is important to include the study of music of all styles, forms, periods and cultures. Music with a sacred text or of a religious origin has an important place in the history of music. It comprises a substantial backgrounds, and to community beliefs. Prior to the selection of any choral literature with a religious perspective, teachers should consider whether a student or students will be made uncomfortable either through participation in or exclusion from the choral activity. Tolerance, understanding and respect for diversity should be guiding principles in the selection of choral music.

At each level, it is suggested that a number of selections be chosen from literature lists according to the voicing of each choral class:

List A: Unison
List B: SA (Soprano, Alto)/Unison with Descant

List C: SSA (Soprano, Soprano, Alto)
List D: SAB (Soprano, Alto, Baritone)

List E: SATB (Soprano, Alto, Tenor, Bass)

These selections are in addition to the repertoire included in the basic series. Note: Listings of appropriate solos and ensembles are available from many sources including festival organizations, music educators' associations and music publishing companies. The music educator is given latitude to select other materials at levels congruent with the teaching/learning experience. CONSIDERATION SHOULD BE GIVEN TO CANADIAN CONTENT AND MUSIC FROM OTHER LANGUAGES AND CULTURES.

# Levels at a Glance

### Level 1

Minimum requirements for a 3-credit program are indicated by  $\mathcal{P}$ . Note: These skills are continuous developmental skills introduced in the junior high but advanced into the senior high school program and are necessary for continued music growth.

The student will:

# vocal skills

- nuderstand the use and care of the vocal instrument
  - A develop proper breath control
- demonstrate properly formed vowels and consonants
- ▶ e recognize when the voice is in tune with other voices or instruments
- demonstrate accurate attacks and releases
- ▶ develop an awareness of balance, blend and texture within the ensemble
- D. understand and demonstrate musical phrasing
- successfully perform his or her part in canon or unison with
- ♪ produce a good vocal tone

# aural skills

- J. match pitches
- A identify any harmonic interval by number
- ▶ echo a five-note melody based on the first five notes of a major scale or the pentatonic scale (do or la based) after it has been played or sung three times
- identify, after two hearings, the following melodic intervals: M2, M3 ascending and descending, m3, P4, P5, P8 ascending 4

# aural skills (continued)

- ♪ sing the bottom note of a harmonic interval of a M3, P5 and P8 after hearing them played twice
- ♪ sight read a four-measure melody based on the intervals studied

# theoretical skills

- identify by letter name the notes of the treble and bass staff recognize and interpret:
- a steady beat at a slow and fast tempo
- rest and note values including dotted notes and rests
  - CJ 4 simple time signatures
- rhythmic patterns associated with the literature being used
  - the tie, fermata and anacrusis
- conduct a two-, three- and four-beat pattern
  - write two bars of rhythmic dictation using
- · identify the white keys of the piano by letter name
- andante and other terms as related to the repertoire being studied identify dynamic markings, tempo indications; e.g., allegro,

# Level I (continued)

# • interpretive skills

The student will:

- J identify and perform phrases, achieving musical sensitivity through stylistic practices:
- demonstrating the function of onomatopoeia, dynamics and varied articulation as devices in word colouring
- using nuance and facial expression as aids in storytelling and picture painting in songs
  - developing intensity; e.g., tension and release
- adding flexibility of tempo; i.e., rallentando, rubato, accelerando
- adding dynamic contrast to repeated phrases or figures and extended passages or selections

# synthesis skills

As a consumer of choral literature, the student will:

- recognize and understand the musical form employed in studied repertoire
- evaluate compositions and performances on the basis of criteria set by the teacher

As a performer of choral literature, the student will:

- recognize and understand the musical form employed in studied repertoire
- analyze performance problems and take appropriate measures to resolve them
- D. perform a solo and/or sing in a small ensemble

### Level II

Note: Only new skills introduced at Level II are listed here. Minimum requirements for a 3-credit program are indicated by J. Please refer to Level I for continuing skills.

The student will:

# vocal skills

- successfully perform his or her part in canon, unison with descant, or a two- or three-part selection
- continue to expand vocal range

## aural skills

- echo a six-note melody based on a diatonic major scale after it has been played or sung three times
- identify, after two hearings, all intervals from Level I as well as the following:

m2 ascending and descending

- sing the bottom note of a harmonic interval as in Level I, plus m3, P4, M6 after hearing it played twice
  - sight read a specified part of a four- to eight-measure melody based on the intervals studied

# theoretical skills

- demonstrate an understanding of the layout of a choral score and follow a specific part
  - identify sharps, flats and their naturals, and understand their function
    - 🎝 recognize and interpret: DC, DS 🛠

- conduct patterns of the repertoire being studied (duple, triple and quadruple metres)
  - write two bars of rhythmic dictation using 3 and 4
- construct an ascending major scale and identify the major and perfect intervals from the tonic
- identify individual notes on the keyboard from written notation, identify the organization of sharps and flats into key signatures including identification of enharmonics
- interpretive skills

### REQUIRED/ELECTIVE COMPONENT

The <u>required</u> component encompasses the knowledge, skills and attitudes that all students in the program should be expected to acquire.

The elective component provides opportunities to adapt and enhance the required portion of the program to meet the diverse needs and capabilities of individual students. It encourages the adaptation of content, teaching strategies, instructional time, evaluation activities and learning resources to meet specific individual student and/or group needs. The elective component provides for enrichment and for additional assistance to individual students, as necessary. Elective time may be used to develop further the required learner expectations through other forms and components, or add other learner expectations where appropriate.

The following list of strategies may be employed in order to address the elective component of the curriculum. These strategies are recognized as an integral part of a successful music program.

### Vocal

### D. BASIC LEARNING RESOURCES

- In the selection of choral literature the teacher is given latitude to select materials from a variety of sources including basic resource texts, support resources, selected literature lists, other resource list, festival organizations and music educators' associations.
- Music should be selected that will include all styles, forms, periods and cultures.
   Consideration should be given to Canadian content and music from other languages and cultures.
- In selecting literature the music educator must also be sensitive to all areas of tolerance and understanding, including religion, gender, age and ethnicity. All teaching selections should be placed in context.

Choose <u>one</u> of the following basic learning resources:

Hausmann, C., H. March, S. Miller and B. Roe. World of Choral Music. Lexington, MA: Silver Burdett and Ginn, 1988.

Six chapters devoted to the study of choral music, forty-nine choral selections for male, mixed and mixed/treble voices, and a "Choral Tips" page for each musical selection. This resource also includes a pupil edition and a black line masters handbook. An excellent series for high school students with limited or no background experience.

Schmid, Will. Something New to Sing About. Mission Hills, CA: Glenco Publishers, 1989. [Levels 1, 2 and 3]

This resource contains three levels of musical selections for mixed chorus, treble and male chorus containing a comprehensive collection of contemporary and classical music. Components include: teacher's manual, student text, work sheets and tests, and accompaniment tapes. Content covers vocal production, music fundamentals, history and vocabulary. It should be noted that some selections contain stereotypical and negative age/gender references.

Schott, Sally, Lois Land, Soally Monsour, Doreen Rao and Ruth Whitlock. Sing! Houston, TX: Hindshaw Music, 1988.

The materials are designed to be used for more than one year and to meet the needs of students with diverse musical backgrounds. This resource presents fifty-one choral selections from all periods and styles, including the works of many master composers in a variety of voicings. Components include: teacher's guide, student text, accompaniment book, resource package with photocopy rights and accompaniment tapes.
